Management, Operations Management Option, BA

Student Learning Outcomes

Students will:

• know the vocabulary of the operations management discipline;

• explain key operations management concepts such as operations strategy, planning, scheduling, processes and their relationships;

• apply operations management concepts to solve operations management problems such as related to planning, scheduling, the supply chain and quality management;

• calculate resource allocations using operations management tools and techniques and analyze performance using appropriate quantitative methods;

• assess a company’s resource needs based on weekly shifts in simulated operations performance.
