Welcome to the Purchasing & Procurement Module

Welcome to the Banner Finance 202 – Creating Online Purchase Requisitions User’s Guide. This guide is designed to provide you with the information you need to successfully create purchase requisitions in Banner INB and includes the following topics:

- Purchasing Methods Overview
- Creating Requisitions
- Reviewing Requisitions
- Deleting Requisitions
- Viewing Requisition and Purchase Order Information

Who Do I Contact For Help?

The Purchasing Department provides additional support and documentation. Visit the Purchasing Department web page at: http://access.ewu.edu/purchasing.xml

For Banner (Finance, Student, and Faculty) documentation, access request forms, and training schedule, visit the Banner Help web page at: http://access.ewu.edu/OIT/Services/IT-Training/Banner-Help.xml

Obtaining Access

To obtain Banner Finance access for Purchasing and Procurement, you must attend the Banner Finance 202 – Online Purchase Requisitions course. To enroll, visit the Training Scheduler on the web at:

https://www.ewu.edu/trainsched/index.php
Logging Into Banner
The following provides instructions on accessing Banner.

**NOTE:** Access is only granted after applicable Banner Finance training courses have been completed.

1. Launch Microsoft Internet Explorer.
   - For PCs Internet Explorer is the supported web browser.
   - For Macs use Safari or Mozilla Firefox web browsers.

2. Access the Banner web page at: http://web.ewu.edu/banner/secure/links/
3. Select *Banner INB (PROD)*.

![Banner INB (PROD) selection](image)

4. Enter your campus user name in the **Username** field (typically your first initial and last name; for example “pjohnson”).

5. Enter your Banner password in the **Password** field and click on the **Connect** button.
   - If you do not know your Banner password, contact the Help Desk at 359-2247.

![Login screen](image)
6. The Banner Main Menu displays.

7. To expand and view the Finance menu, click on the Financial (*Finance) file folder icon.

- To view available forms in the applicable modules, click on the desired module (for example; Purchasing and Procurement). Click through the desired submenus to access the desired form or query.

**Purchasing Overview**

The following section provides policy and procedures for purchasing activity.

<table>
<thead>
<tr>
<th>Purchasing Guidelines</th>
</tr>
</thead>
<tbody>
<tr>
<td>Purchases between $3,300.00 and $46,200.00 (including tax and shipping)</td>
</tr>
<tr>
<td>Purchases over $46,200.00</td>
</tr>
<tr>
<td>State contracts</td>
</tr>
</tbody>
</table>

**PCard Purchasing**

Procurement cards (PCards) should be the first option for purchases. For items that cannot be purchased using a PCard (purchases over $3,299.00 [including tax and shipping], tagable assets, etc.), the Banner Purchasing & Procurement module should be used.

**Note:** Even if a vendor does not charge sales tax, Eastern still pays a use tax to the State equal to the sales tax rate on all purchases.

For more information on obtaining and using PCards, as well as training requirements, and a complete list of prohibited purchases, visit the Procurement Card Information web page at: http://access.ewu.edu/Purchasing/Procurement-Card-Info.xml and click on the **Procurement Card Manual** link on the page.

**PCard Dollar Limits**

Dollar limits for PCard purchases have been changed:

- $3,299.00 maximum amount per purchase (including tax and shipping)
$10,000.00 maximum purchase amount allowed per month

Purchase Types Processed in Banner
The following provides a list of purchases that are required to be entered in Banner as online purchase requisitions:

- MOAs (memorandum of agreements).
- All reimbursements including reimbursements under $100.00.
- Purchases over $3,300.00. Note: Refer to the Purchasing Department Purchasing Manual for further information on bidding and state contracts.
- Dues or conference fees paid to other Washington state agencies.

Note: The following purchases are not entered as online purchase requisitions:

- IDPOs (inter-department purchase orders) are not entered using the Purchasing & Procurement module in Banner. IDPOs are processed by the General Accounting department.
- Four digit contracts (such as the City of Cheney, Banner Consultants, etc) are not entered using the Purchasing & Procurement module in Banner.
- Purchase requests against University blanket orders are processed via hard copy request forms. For more information, contact the Purchasing department.

Grant Purchases
Grant purchases are processed using the Banner Purchasing and Procurement module. All grant related purchase requisitions entered in Banner are routed through an approval queue starting with the project director (or designee), then to the Office of Grant & Research Development for approval. Once a purchase requisition is approved by the Office of Grant & Research Development it is routed to the Purchasing department for processing and conversion to a purchase order.
Change Orders
Change orders are submitted when changes are required to a requisition (once the requisition has been processed and approved) or to purchase orders. Possible scenarios requiring a change order include:

- A change in vendor
- Difference in the invoice amount versus the purchase order amount
- Different item substituted on the purchase order (original item out of stock, no longer available, etc.).

For questions regarding if/when to submit a change order, contact the Purchasing Department. To obtain a Change Order form, visit the Purchasing Department web page at: http://access.ewu.edu/Purchasing/Forms-and-Completion-Instructions.xml

Requisition/Purchase Order Life Cycle
The “life-cycle” describes what happens to a requisition from start to finish. The following is an example of a requisition’s life-cycle.

- A department creates an online requisition for a new computer.
- After the requisition is created and saved; if applicable, it is sent to the Approver for approval. This creates a “reserve” against the FOAPAL entered on the requisition.
- A Buyer in the Purchasing department converts the approved requisition into a purchase order. This process liquidates the reserve and creates an encumbrance for the amount of the purchase order (which may be a different amount than the amount of the requisition due to shipping and handling charges, taxes, special discounts applied, or sale prices, etc.). A hard copy of the purchase order is sent to the vendor and the department.
- After the purchase order is sent to the vendor, and the order is filled and received, the vendor invoices the University. The Accounts Payable department receives the vendor invoice and enters the invoice into Banner Finance. This transaction liquidates the encumbrance.
- A check is issued to the vendor.
Requisition Form

The Requisition Entry form (FPAREQN) contains the following components:

- **Requestor/Delivery Information** – This tab provides the requisition creator information and also allows “ship to” information to be entered.

- **Vendor Information** – This tab is used to select a desired vendor and displays vendor information such as vendor name, address, telephone number. Requisitions can be processed without selecting a vendor in the case of a new vendor not yet entered in the system, or bid scenarios when it is not known which vendor will prevail.

- **Commodity/Accounting** – The Commodity tab is used to list the type, quantity and price of items being ordered. Multiple lines can be created for each requisition. For example, a department orders a new computer, toner cartridges for a photocopier, and two computer keyboards. All items are ordered from the same vendor on the same requisition form; however each item is listed as a separate line item. FOAPAL information is also entered in this tab for each line item.

- **Balancing/Completion** – This section of the requisition form is used to complete the requisition process before saving. This tab provides a break-down of dollar amounts associated with the purchase including tax.
Creating Purchase Requisitions

This section provides instructions for creating or entering an online purchase requisition using the Purchasing and Procurement module in Banner.

1. From the Banner Main Menu, enter **FPAREQN – Requisition** in the Go To field and press Enter.
   - To navigate using the menu select: Financial > Purchasing and Procurement > Request Processing > Requisition (FPAREQN)

   ![Menu Screenshot]

2. The Requisition form displays.

3. Click on **Next Block** to generate a new requisition number and access the Requisition Entry Requestor Delivery Information form.
   - To access an existing requisition, enter the applicable requisition number in the Requisition field, or click on the black arrow to access a list of all requisitions. Refer to the section Reviewing Requisitions in this Guide for more information on searching for an existing requisition.

   ![Requisition Form]

Banner 202 – Creating Online Purchase Requisitions 10 Instructional Technology Department 12/9/2010
4. The **Requisition Entry: Requestor/Delivery Information** form displays. Enter the following in the Key block using the Tab key to navigate:

- **Requisition** – This field defaults to NEXT until the **Commodity/Accounting** tab is selected and the system automatically assigns the next available number. Do not enter a number in this field.

- **Order Date** – This field defaults to the current system date. Do not change the order date.

- **Transaction Date** - This field defaults to the current system date. Do not change the transaction date.

- **Delivery Date** – *This is a required field.* Enter a reasonable delivery date (MMDDYY), typically two weeks from the current date, or use the calendar icon (if desired) to select the desired date. For MOAs, enter the last day services will be provided. **Note:** The delivery date entered does not effect the processing of the requisition or the date of delivery of goods.

- **Comments** – This field is used to convey information to the Purchasing department such as “supersedes order PXXXXXXX”. This field is limited to 30 characters. If applicable, enter desired text.

- **Commodity Total** – This field remains empty until the requisition is saved. Do not enter data in this field.

- **Accounting Total** - This field remains empty until the requisition is saved. Do not enter data in this field.

- **Document Level Accounting** - This check box defaults to not selected. If all items on the requisition share the same Account code (for example; Supplies – 71400) the check box should be selected*. If multiple Account codes are being used for multiple items, leave the check box unselected.

**Note:** *Commodity Level Accounting* – Multiple Account codes apply to all items.

*Document Level Accounting* – One Account code applies to all items. The system defaults to document level accounting.
5. Click on Next Block to access the Requestor/Delivery Information section of the form.

- Various requestor information defaults based to the user profile. If any information is missing such as Organization or Email, use the Tab key to access the field and enter the applicable information.

6. Tab to the Ship To field. This is a required field even if products are not being physically delivered. Click on the black arrow to access a list of locations. The Ship To code matches your department mail drop code (for example 318MON, 125TAW, etc.).

- Use the scroll bar to select the desired delivery location from the Ship To List.

<OR>

- Use the Find field to perform a search. For example; enter “307%” to perform a wild card search for all locations with a location code starting with “307” (this search is not case sensitive). Click Find to execute the search. Double click on the desired location to populate the Ship To field.
Enter 7237 for the Central Receiving Warehouse.

**Note:** When a Ship To location is selected, the address, telephone and contact information populates the applicable fields.

7. The **Attention To** field is used to enter your name, a telephone extension, and room number (for example, PJohnson, x4365, MON318). This field is limited to 35 characters. Enter the applicable contact information.

8. If additional information regarding the requisition needs be noted (for example, additional information to the Purchasing department that does not fit in the Comments field), click on **Options** in the menu bar and select **Document Text (FOAPOXT)** from the drop-down list. The **Document Text** form displays.
• Click on Next Block to access the text fields.

• Enter the desired text. Use the keyboard arrow down key to move to additional text fields.

  **Note:** If the Print check box is selected, the text will display on the printed purchase order the vendor receives.

• Click on the Save button in the tool bar to save the document text. Click on the Exit (X) icon to close the Document Text form and return to the Requisition form.

9. If all information is entered and correct on the Requestor/Delivery Information tab, click on the Vendor Information tab.

  • It is not necessary to enter a vendor in order to submit a requisition. If a vendor is selected, refer to Step 10. If a vendor is not selected, refer to Step 15.

10. To select a vendor, click on the black arrow between the two vendor fields to look up the vendor.

  • Select the Entity Name/ID Search (FTIIDEN) option from the Options List.
11. The **Entity Name/ID Search** form displays. Tab to the **Last Name** field and enter the vendor name.

- The vendor name *must be entered exactly* as displayed in Banner. This search is case-sensitive. If the exact vendor name is not known, enter a portion of the vendor name and use a wildcard character ( % or _ ). Click **F8** to execute the search.

- Depending on the search criteria entered, a list of matching vendors displays.
Note: Multiple vendors with the same or similar name may display. To determine the correct vendor, verify the Change IND field does not display “I” (inactive), or select the vendor with LGCY displaying in the Type field. Double click on the desired vendor name to return to the Vendor Information tab.

Note: If an inactive vendor is unintentionally selected, Banner substitutes the correct vendor ID and displays a system message indicating the change. If applicable, click on OK to clear the system message.
12. If the vendor address information does not display after the vendor has been selected, confirm the address type in the **Address Type** field and the number in the **Sequence** field.

13. Address Type **PO** (purchase order) should be selected. Click on the black arrow to access the **Address Information Query (FOQADDR)** form.

   - Double click in the **Address Type** field displaying **PO** to select the **PO** address type and return to the **Vendor Information** tab.
14. If desired, enter the contact person’s email address in the Email field.

15. If a vendor is not known or new, click on Options in the menu bar and select Document Text (FOAPOXT) from the drop-down list.

- For new vendors, the department must complete and submit a Vendor Request form noting the requisition number. Refer to the Purchasing department web page for more information.
16. The **Document Text** form displays. Click on **Next Block** to access the text fields. For a new vendor, enter as much detail as possible including name, address, contact information, etc. If the vendor is not known (for example, if the requisition must go out to bid), enter an explanation. Use the keyboard arrow down key to move to additional text fields.

- Click on the **Save** icon in the tool bar to save the document text. Click on the **Exit** (X) icon to close the **Document Text** form and return to the **Vendor** tab.

17. The **Discount**, **Tax Group** and **Currency** fields default. Do not change the data in the **Discount** and **Currency** fields.

- For MOAs and non-taxed items enter **Tax Group NT** (no tax).
18. If all vendor information is entered and correct on the **Vendor Information** tab, click on the **Commodity/Accounting** tab.

**Note:** When tabbing from the **Vendor Information** tab to the **Commodity/Accounting** tab, Banner assigns the next available requisition number.

19. The cursor displays in the **Commodity** field. This field is not used. Use the Tab key to move to the **Description** field. This field is used to enter a description of the item being ordered. If the requisition is a MOA, indicate so in the **Description** field.

20. The amount of text is in the **Description** field is limited to 50 characters. If additional text is required (such as if the purchase is an open order, the product description, model number, specifications, or quote information), click on **Options** in the menu bar and select **Item Text [FOAPOXT]** from the drop-down list.

21. The **Procurement Text Entry** form displays.
   - Click on **Next Block** to access the text fields.
• Enter the desired text. Use the keyboard arrow down key \( \downarrow \) to move to additional text fields. To insert a blank line between text lines, enter a period (.) in the field.

• For MOAs for services or speakers, enter what the service is for, the dates, event, and whether travel related expenses are included or not.

• If the Print check box is selected the text entered will display in the printed purchase order sent to the vendor. If the text should not display, deselect the check box.

• Click on the Save icon in the tool bar to save the item text. Click on the Exit (X) icon to close the Procurement Text Entry form and return to the Commodity/Accounting tab.

22. Use the Tab key to move to U/M (unit of measure) field. Click on the black arrow to access the Unit of Measure List. Use the scroll bar to select the applicable unit of measure (for example, EA for each).

• For MOAs, enter LOT.
23. Tab to the Quantity field. Enter the desired quantity.

24. Tab to the Unit Price field. Enter the applicable price using decimal point to enter cents (for example; 879.99).

25. If a discount is to be applied, tab to the Additional field to enter the dollar amount (using a decimal point for cents). Do not enter discounts in the Discount field.

26. Use the Tab key to move through all additional fields until the cursor is back in the Commodity field.

- Use the arrow down key on your keyboard to add additional line items in the Description field. Repeat Steps 19 – 26 for all additional line items.

**Note:** Shipping expenses (if applicable) must be added as an additional line item. Select Tax Group “NT” (no tax) to ensure the expense is not taxed.

27. Click on Next Block to move to the FOAPAL section of the tab.
28. The COA (Chart of Accounts) field defaults to “E” (Eastern). Do not change the COA.

29. Tab to the Year field. The Year field defaults to the current fiscal year. Do not change the year.

30. Tab to the Index field. Enter the applicable 6-digit Index code (the Fund, Organization and Program values populate based on the Index code entered).

31. Tab to the Acct field. Enter the applicable Account code for the item purchased (for example; 71400 - supplies, 71601 - IT equipment/small and attractive).

Note: A FOAP line must be added for each line item of the requisition.

- If the charge is to be split between two or more budgets (indexes), you must have authorization to access those indexes. To split the charge, after entering the Account code, tab to the first USD field and enter the dollar amount (or percentage) associated with first line of the FOAP.
• Click on the Tab key to return to the COA field. Use the arrow down key on the keyboard to move to the next FOAPAL line.

• Repeat Steps 28 – 31 to add the additional FOAP(s). Tab through the FOAPAL section of the form after entering the addition FOAP(s). Confirm that the Remaining Commodity Amount is .00.

• To add additional FOAPs for all line items in the requisition, tab through to the COA field and use the arrow down key on the keyboard to access the next line and repeat Steps 28 – 31.

32. Once all FOAPALs and distribution amounts have been entered on the Commodity/Accounting tab, click on the Balancing/Completion tab.

33. Confirm that the Status fields all display Balanced (if not, return to the Commodity/Accounting tab to make corrections to the FOAPAL line dollar amount distributions). To submit the requisition for processing click on the Complete icon.

• To save the requisition in a “pending” status for completion/processing at a later, select the In Process icon.
Note: After saving the requisition in Complete status or In Process status, the system returns to the Requisition form. Note the requisition number in the Auto Hint Status line of the Requisition form.
Purchase Requisition Approvals

Depending on the approval process determined by the department, some requisition creators may also be authorized to submit requisitions without requiring approval from department management. Once the requisition is saved by the creator, it is processed and transmitted to the Purchasing department. Once saved, the requisition cannot be retrieved by the creator, nor sent back to the creator by the Purchasing department.

For other departments, the purchase requisition creator is not authorized to purchase without approval. For these departments, an authorized approver must access Banner and approve the requisition before it is sent to the Purchasing department for conversion to a purchase order. The authorized approver may decide not to approve the transaction and return it to the creator unapproved.

Refer to the Banner 203 - Approving Online Purchase Requisitions Reference Guide for additional information on the approval process.

Disapproved Requisitions

If a requisition approver disapproves a requisition, the requisition creator is notified and can view any comments made by the approver. The following provides instructions on viewing disapproved requisitions.

1. Upon logging into Banner after a requisition has been disapproved, the Check Banner Message link on the Main Menu displays a green checkmark.

   - **Check Banner Message** can be viewed at any time. The green checkmark only displays at initial logon if there are new messages. Once messages are viewed, the checkmark no longer displays.
2. Click on the **Check Banner Message** link to access the **General Message (GUAMESG)** form. This form displays information only.

   - The form displays any disapproved requisitions along with any notes the requisition approver may have added.

3. The **General Message** form retains all messages until they are manually removed. To remove a message, click in the **Recipient** name field to select the record. Click on **Record** in the menu bar and select **Remove** from the drop-down list.

**Approved Requisition List**

The **Approval History (FOIAPHT)** form is used to view approved requisitions by requisition number, approved date, or by approver name. This form can be accessed to determine if a specific requisition has been approved, but does not provide requisition detail information.

1. From the Banner Main Menu, enter **FOIAPHT** in the **Go To** field and press Enter.

   - To navigate using the menu select: Financial > Finance Operations > Finance Approval > Approval History (FOIAPHT)

2. The **Approval History** form displays. Click on the **Enter Query** icon.

   - Enter the requisition number and click on the **Execute Query** icon
3. The applicable requisition displays with the approver name, approval date, etc.

3. Click on the Exit icon (X) to close the form.
Reviewing Requisitions

A requisition can only be viewed (using the following steps) if it has not yet been processed or approved and, if you have created the requisition. To look up an approved requisition or purchase order, refer to the Viewing Document History Detail section in this Guide.

The following provides instruction on looking an unapproved requisition.

1. From the Banner Main Menu, enter FPAREQN – Requisition in the Go To field and press Enter.
   - To navigate using the menu select: Financial > Purchasing and Procurement > Request Processing > Requisition (FPAREQN)

2. Click on black arrow at the Requisition field to access the Requisition Validation (FPIRQST) form.
   - The Requisition Validation form displays all requisitions in the system (processed, not processed, unapproved, and approved).

3. To search for a requisition from the Requisition Validation form, click on the Enter Query icon in the tool bar. This clears all displayed requisition data.
4. To search for a requisition by creator name, tab to the Requestor Name field and type the creators name in the field.

   - The creator name must be entered exactly as displayed in Banner. This search is case-sensitive. If the exact name is not known, enter a portion of the name and use a wildcard character (% or _). Click F8 or the Execute Query icon in the tool bar to execute the search.

5. Depending on the search criteria entered, a list of matching requisitions displays.

6. Double click on the desired requisition number to return to the Requisition form.
7. Click on **Next Block** to access the requisition. Click on the various tabs to view requisition data.
Copying an Existing Requisition

Copying an existing requisition allows common or recurring purchases to be processed without creating a new requisition each time an order must be submitted. Only requisitions in a completed, posted and approved status may be copied. The following provides information on copying an existing requisition to submit a new order.

1. From the Banner Main Menu, enter **FPAREQN – Requisition** in the **Go To** field and press Enter.
   - To navigate using the menu select: Financial > Purchasing and Procurement > Request Processing > Requisition (FPAREQN)

2. From the **Requisition** form, click on the **Copy** icon.

3. The **Copy (FRARQN)** dialog box displays. Enter the desired existing requisition number you wish to copy and click on **OK**.
To look up a requisition if the requisition number is not known, click in the black arrow to access the **Requisition Validation** (FPIRQST) form.

The **Requisition Validation** form displays all requisitions in the system (processed, not processed, unapproved and approved). Use the scroll bar to search for the desired requisition.

<OR>

To query search for a requisition from the **Requisition Validation** form, click on the **Enter Query** icon in the tool bar. This clears all displayed requisition data.

To search for a requisition by creator name, tab to the **Requestor Name** field and type the creators name in the field.

The creator name **must be entered exactly** as displayed in Banner. This search is case-sensitive. If the exact name is not known, enter a portion of the name and use a wildcard character (\% or \_). Click **F8** or the **Execute Query** icon in the tool bar to execute the search.
Depending on the search criteria entered, a list of matching requisitions displays.

Double click on the desired requisition number to return to the Requisition form.

4. A new requisition number is issued for the copied requisition. The new requisition contains all the data and information from the copied requisition. Click on Next Block to access the Requisition Entry form to make necessary changes (if applicable) and save the new requisition.
Cancelling Requisitions

The Requisition Cancel form is used to cancel a requisition. Before a requisition can be cancelled, it must complete, approved, and posted. Once a requisition has been cancelled, it cannot be “un-cancelled”, but may be copied (refer to the Copying an Existing Requisition section in this Guide for further information).

To delete a partially completed requisition while using the Requisition form (FPAREQN), click on Remove Record icon in the tool bar until all data in all tabs is removed.

Note: If a requisition has not yet been approved, the Approver can send the requisition back to the creator for cancellation. If the requisition has been approved, and/or converted to a purchase order, contact the Purchasing Department and request that they cancel the requisition/purchase order.

The following provides information on cancelling a requisition.

1. From the Banner Main Menu, enter FPARDEL – Requisition Cancel in the Go To field and press Enter.
   
   - To navigate using the menu select: Financial > Purchasing and Procurement > Request Processing > Requisition Cancel (FPARDEL)

2. The Requisition Cancel form displays. Enter the following data:

   - Request Code – Enter the requisition number in the first Request Code field. If the requisition number is not known, click on the black arrow between the Request Code fields to access the Requisition Validation form (FPIRQST).
- Scroll through the list to find the applicable requisition or perform a query search using the requestor name. Double click on the requisition number to return to the Requisition Cancel form.
3. Click on **Next Block**. Requisition details display.

4. Click on **Next Block**. Cancel date information displays. Enter the following:

   - **Cancel Date** – This field defaults to the current system date. If applicable, enter a different date.
   
   - **Reason Code** – Click on the black arrow to look up a list of reason codes. Select the applicable code from the list.
5. Click on the **Make Cancellation Permanent** icon, or click on **Options** in the menu bar and select **Process Cancellation** from the list.
Requisition Tracking Tools

The following section provides information on various forms and queries that may be used to track requisitions, purchase orders, orders by vendor, and orders by FOAPAL.

Viewing Document History Detail

The FOIDOCH – Document History Detail form provides additional access to the source documents (purchase orders, invoices, checks, etc.) that display in the form. The following provides instructions on viewing additional source document information in the FOIDOCH – Document History Detail form.

1. From the Banner Main Menu, enter FOIDOCH – Document History Detail in the Go To field and press Enter.

2. The Document History Detail form displays. Enter the following data:

   - **Document Type**: Enter the applicable document type (for example: PO for purchase order, REQ for requisition), or use the look-up list by clicking on the black arrow at the end of the field.

   - **Document Code**: Enter the applicable document code. The FGITRND - Detail Transaction Activity form can be used to obtain document codes, or use the look-up list by clicking on the drop-down arrow at the end of the field. The document code must match the document type (for example; \( \text{REQ} = R0000058, \text{PO} = P0000132 \))

3. Click on Next Block to view the data.

4. Highlight the desired document number (for example; the purchase order number or invoice number).
5. Click on **Options** in the menu bar and select the applicable option from the list.

- The options vary depending on the document number selected (for example; an invoice will display an invoice information option, a purchase order will display a purchase order information option).

- **Note:** **View Status Indicators** is always an option in the list regardless of the document number selected and provides the definitions of the various statuses displayed (for example; **A** = Approved, **C** = Completed, etc.)

6. The corresponding form displays. Click on **Next Block** to display the source document information.
Continue to click on **Next Block** to view all applicable information.
Viewing Encumbrances

To view all existing encumbrances, by department, use the FGIOENC – Organizational Encumbrance List form.

1. From the Banner Main Menu, enter FGIOENC in the Go To field and press Enter.

2. The Organizational Encumbrance List form displays. Enter the following data in the key block:
   - **COA**: Enter E. This field is case sensitive.
   - **Fiscal Year**: Enter the applicable fiscal year (for example; 08 for fiscal year beginning July 1, 2007).
   - **Index**: Enter the applicable six-digit Index code.

3. Click on **Next Block** to view data.
Viewing Purchase Orders By Vendor

The Purchase Orders by Vendor form is used to look up open, closed, cancelled or incomplete purchase orders for a specific vendor. The following provides instructions for looking up purchase orders by vendor.

1. From the Banner Main Menu, enter FPIOPOV - Purchase Orders by Vendor in the Go To field and press Enter.

2. The Purchase Orders By Vendor form displays. Enter the following data in the key block:

3. Vendor: If known, enter the vendor ID number in the first Vendor field. If the vendor ID is not known:
   - Click on the black arrow between the Vendor fields to access the Entity Name/ID Search (FTIIDEN) form.
   - Enter the exact vendor name in the Last Name field. Note: This is a case-sensitive search, use an initial capital letter and the exact vendor name (for example “Software House International”). If the exact vendor name is not known, enter a
portion of the name and a wildcard character (% or _).

- Press F8 to execute the query. Double click on the desired vendor name to return to the Purchase Orders By Vendor form.

4. **Status**: Select the desired purchase order status radio button. It is advised to select **All**.

5. **Fiscal Year**: This field defaults to the current fiscal year. If desired, enter an applicable fiscal year (for example; 08 for fiscal year beginning July 1, 2007).

6. **Organization**: Enter your department’s organization code.
7. Click on **Next Block** to view data.
   - Use the scroll bar if necessary to view all requisitions.
Viewing Requisitions by FOAPAL

The Open Requisition by FOAPAL Query form is used to look up all open requisitions charged against a specific index. The following provides information on looking up purchase requests by specific indexes.

1. From the Banner Main Menu, enter FPIORQF – Open Requisition by FOAPAL in the Go To field and press Enter.

2. The Open Requisition by FOAPAL Query form displays. Enter the following data in the key block:
   - **Index**: Enter the applicable Index code and press tab.

3. Click on **Next Block** to view data.
   - All requisitions charged against the selected Index display. Use the scroll bar if necessary to view all requisitions.

</tr>
<tr>
<td>71463 – Employee Training</td>
<td>This code is used for employee training costs such as classes for recertification and asbestos training.</td>
</tr>
<tr>
<td>71472 – Public Relations</td>
<td>This code is used for advertising, banners, promotions, awards, prizes and tickets. Pre-approval from University Relations is required for display ads.</td>
</tr>
</tbody>
</table>
Common Purchasing Definitions

The following are some common purchase order definitions:

- **Regular Order** – This is the most common type of purchase order and is mainly used to purchase supplies and equipment. This purchase order encumbers funds.

- **Regular Order – Received** – This purchase order type is used to pay for items that do not require receiving to be posted. It is mainly used for supplies and equipment purchased and received before a purchase order has been generated.

- **Check with Order** – This purchase order type allows for the prepayment of books, memberships, dues and subscriptions.

- **Blanket Order** – Blanket orders are issued for purchasing supplies from one vendor for a fiscal year and renewed annually if the department requests the renewal. The total estimated dollar amount cannot exceed $3,300 unless a contract vendor is used, competitive competition, or a sole source justification is provided. Blanket orders are set up to allow a department to use multiple indexes or funds and do not encumber funds. If the order is placed against a blanket order, department personnel must provide the vendor with the appropriate Index or fund, the appropriate purchase order number, EWU contact name, and phone number. No equipment, small appliances, or personal items may be purchased on a blanket order.

- **University Blanket Order** – A select list of vendors is maintained and renewed by the Purchasing Department and is available to all University departments. The list of vendors and current purchase order numbers are routed to departments via Purchasing. Enterprise Rent-A-Car and Artistic Travel are the only two vendors that require a department requisition including the name of the traveler, dates, to and from locations, amount, and reason for the travel. If the travel is for a consultant, speaker, or non-employee other than a EWU student or candidate, a contract or Memorandum of Agreement (MOA) is required authorizing the charge. Before an airline ticket or car reservation can be issued, Purchasing must authorize the travel against the University Blanket Order with the vendor.

- **Standing Order** – Standing orders are issued for purchasing supplies from one vendor for a fiscal year and renewed annually if the department requests the renewal. The total estimated dollar amount cannot exceed $3,300 unless a contract vendor is used, competitive competition, or a sole source justification is provided. A standing order is tied to one account code and encumbers funds. If the order is placed against a standing order, only the purchase order number, EWU contact name, and phone number is needed. Department personnel must provide the vendor with the appropriate purchase order number, EWU contact name, and phone number. No equipment, small appliances, or personal items may be purchased on any standing orders. Standing
order can be used for copy machine rental as the purchase order usually contains a line for extra copies at an estimated amount when the monthly rate will remain the same over the length of the contract, but the total amount cannot exceed $3,300.
Purchase Dollar Amounts Including Tax

The following is a chart of dollar amounts with tax included (at the Cheney tax rate of 8.6%). This chart may be used for entering dollar amounts taking into consideration the tax rate, while not exceeding a specific dollar amount (Banner automatically adds tax at the specified tax group rate). For example, if the requisition item cannot exceed $2,000.00, enter the item for $1,841.62 ($2,000 – 8.6% = $1,841.62).
