Pavilion Special Events Drop Off Procedures

In an effort to accommodate the passenger needing to be dropped off at the front entrance of the Pavilion, we have the following procedures:

Passengers may be dropped off in the designate passenger drop off area, near the North entrance of the Pavilion. See map for directions and location. (B7) Passenger drop off area can be accessed from Washington Street via P9 entrance.

- The passenger drop off area is available at all times, unless there is an emergency occurring in the Pavilion.
- Loading and unloading of passengers should be limited to 5 minutes.
- Vehicles should not be left running and/or unattended.

**Driving Instructions:**
Pull into the drop off loop. Use caution, watch for pedestrians crossing from the accessible parking area. Stay in the right lane, and move up until you find a space at the curb. Pull into the space, parallel to the curb. Drop the passenger off, and then pull out into traffic lane. Watch for pedestrians crossing at the cross walk. Continue through the drop off loop to exit through P9. Yield to traffic already on the driveway.

If you are intending to park your car and access the Pavilion, **DO NOT** park in the passenger drop off loop. Use designated accessible parking spaces, if appropriate or Parking lot P9.
